

The BULLETIN *of the*
NATIONAL DISTRICT HEATING ASSOCIATION

ORGANIZED 1909

VOLUME XXXI

APRIL 1946

NUMBER 3

Washington, D. C.

Philippe Schereschewsky, Director of the Cie Parisienne de Chauffage Urbain, who has been in this city since before the war, returned to France on a mission in December.

Columbia, South Carolina.

The campaign in this city to raise \$75,000 for the construction of a new heating plant for the buildings of the Epworth Orphanage has been a success, more than the total asked having been raised. Dr. W. O. Roberts is the orphanage superintendent.

Washington, D. C.

Captain Edward C. Jones has completed his service in the U. S. Army and has re-

turned to his position of Mechanical Engineer with the Post Office Department.

FEATURES OMITTED

Certain features, such as "Our New Members — Whom We Welcome", "In The Magazines", "Manufacturers Catalogues and Bulletins", and "New Equipment, New Ideas, New Processes", which usually appear in Bulletin Numbers, have been omitted in this issue due to the space required for articles regarding the Annual Meeting and the proposed new Constitution and By-Laws. They will appear in subsequent issues.

Deaths of European Members of NDHA Reported

A letter from his firm, recently received at Headquarters, informs us of the death in June 1945 of Mr. Hugo Theorell, of Stockholm, Sweden. Mr. Theorell, a well-known consulting engineer, joined NDHA in 1929. During most of the war it was impossible to communicate with Sweden, so we had not

previously learned of his regrettable death.

Word has also reached Headquarters of the death in a boiler explosion during the war of F. Montois, Chief Engineer of the Society Electricite de la Seine, Paris, France. Mr. Montois joined NDHA in 1938.
