GENERAL SUBJECT AND AUTHOR INDEX
OF THE PUBLICATIONS OF

The National District Heating Association
1945–1964

PROCEDINGS
Vol. XXXVI, 1945 - LV, 1964

BULLETIN
Vol. XXX, Oct. 1944 - XXX VIII, April 1953

DISTRICT HEATING
Vol. XXXIX, July 1953 - XLIX, April 1964

BULLETIN and DISTRICT HEATING items may be distinguished by the name of a month preceding the year and page number

Previous General Indexes are in 1935 and 1945 PROCEEDINGS
Abandonments, 1948, p 114; 1949, pp 103–106; July 1957, p 12
AB Autometer—Hortenau System, The (an Electric Heat-Quantity Meter), October 1948, p 7
Abbott Power Plant (see University of Illinois)
“Absorption Air Conditioning, Application of Steam”—George H. Tuttle, 1948, p 123
“Absorption Air Conditioning, Factors Influencing the Choice of Steam”—Wesley S. Ehrenzeller, James W. Megley, 1958, p 117
“Absorption Air Conditioning, Harvard University's Experience with Steam”—Norman Goodwin, 1964, p 36
“Absorption (Steam) Air Conditioning Units, Design Considerations Affecting the Selection of”—Alfred L. Jaros, 1950, p 161
“Absorption Equipment for New Apartment Development, Reasons for Selection of Steam”—Wirt S. Scott, 1951, p 57
Advantages of District Heating, July 1945, p 171; April 1946, p 158
“Advertise, Should District Steam Heating—And How!”—Clara H. Zilles, 1949, p 164
Advertising Committee Reports (see Proceedings 1950–1964)
“Aerco Heaters, 1954, p 81
“Air and Steam Testing of Shuntflo Meters, A Comparison Between”—William G. Gillim, 1948, p 162
“Absorption Refrigeration—The Answer to Campus Utility Problems”—G. Owen Kuhlen, 1960, p 88
Absorption, Steam Air Conditioning, Case Histories, Boston, Mass.—James W. Megley, 1964, p 44
“Absorption System Works, How the”—John G. Reid, Jr., 1958, p 120
“Absorption Systems, Combination Turbine and”—G. Owen Kuhlen, 1956, p 39
Accounting Committee Proposal, 1957, p 35
“Accounting Practices of Electric and/or Gas Companies Supplying Steam Service”—E. J. Steinberg, 1947, p 107
“Accounting Practices, Questionnaire on Customer”—John D. Lemon, October 1962, p 76
“Accounts at The Detroit Edison Company, Using an I.B.M. 705 Digital Computer for Steam”—Carl B. Sprenger, 1961, p 120
“Actual Temperatures Reached by Underfeed Stoker Iron”—Walter M. Gillespie, 1950, p 236
“Additional Capacity for District Heating in Baltimore”—Russell C. Hine, January 1950, p 69
“Additional Generating Equipment at the Rochester Gas and Electric Corporation”—George M. Johnson, 1954, p 106
Adjustments, Fuel Cost, 1950, p 78
“Advantage of District Heating, 1945, p 171; April 1946, p 158
“Advertise, Should District Steam Heating—And How!”—Clara H. Zilles, 1949, p 164
Advertising Committee Reports (see Proceedings 1961–1964)
“Aerco Heaters, 1954, p 81
“Air Conditioning, Advantages of Steam-Opperated Equipment for, 1952, p 92
“Air Conditioning an Existing Office Building, 1956, p 68
“Air Conditioning, In-Wall”—Irving G. Brennan, 1957, p 209
Air Conditioning (see also Absorption)
Air Conditioning, Advantages of Steam-Opperated Equipment for, 1952, p 92
“Air Conditioning an Existing Office Building, 1956, p 68
“Air Conditioning, Application of Steam-Ab- sorption”—George H. Tuttle, 1948, p 123
Air Conditioning Business Gain, 1951, p 57; 1952, pp 55, 73, 107
“Air Conditioning, Central, vs. Room-Cooler Installations, Comparative Operating and Owning Costs”—G. Owen Kuhlen, 1957, p 66
“Air Conditioning, Characteristics of Cooling Towers Operated in Conjunction with Steam”—Boris A. Dmitrieff, 1957, p 62
Air Conditioning Committee Reports (see Proceedings 1950–1964)
Air Conditioning, Comparison of Investments in Mechanical and Absorption Systems, 1951, p 61

"Air Conditioning—Determination of Estimated Operating Costs, Absorption vs. Mechanical Systems of"—WIRT S. SCOTT, 1952, p 74

"Air Conditioning, Estimated Owning and Operating Costs Comparison Between Electric and Steam"—WIRT S. SCOTT, 1950, p 150

"Air Conditioning, Factors Influencing the Choice of Steam Absorption"—WESLEY S. EHRENZELLER, JAMES W. MECLEY, 1958, p 117

"Air Conditioning, Further Developments in Steam"—JOHN A. GILBREATH, 1953, p 69

"Air Conditioning, Harvard University's Experience with Steam-Absorption"—NORMAN GOODWIN, 1964, p 36

"Air Conditioning in Apartment Houses, Advantages of Central-Plant"—DANIEL CHTALO, 1960, p 71

Air Conditioning in Lines of New York Steam Distribution, 1947, p 157

Air-Conditioning Installations in Various Cities, 1959, p 104

Air-Conditioning Investment Analysis, 1952, p 83

"Air-Conditioning Load of Member Companies"—E. C. BRUCE, 1959, p 104

"Air-Conditioning Load, Steam"—DAVID W. LOUCKS, ROBERT D. MARTIN, STERLING S. SANFORD, WIRT S. SCOTT, 1953, pp 72-77

"Air Conditioning of Existing Office Buildings, A Contractor's Look at the"—PETER B. GORDON, 1956, p 64

"Air Conditioning, Recent Developments in the Field of Absorption"—WALLACE J. HOEING, 1955, p 98

Air Conditioning, Steam-Absorption, Case Histories, Boston, Mass.—JAMES W. MECLEY, 1964, p 44

"Air Conditioning, Steam Possibilities for"—JOHN A. GILBREATH, 1951, p 65

"Air-Conditioning Systems, Uses of Copper and Copper Alloys in Heating and"—DONALD M. MCCUE, 1964, p 50

"Air-Conditioning Systems Using Steam in New York City, Steam Performance Data on All-Year"—ROBERT E. BURKE, 1954, p 120

"Air Conditioning, The Promotion of Summer Load Through"—ROBERT E. BURKE, 1950, p 130

"Air-Conditioning Unit, Operating and Maintenance Experience Based on Actual Performance of 150-Ton Steam Absorption"—RAYMOND A. LAMMERS, 1950, p 154

Air-Conditioning Units, Absorption, 1955, p 86

"Air-Conditioning Units, Design Considerations Affecting the Selection of Steam-Absorption"—ALFRED L. JAROS, 1950, p 161

Air Conditioning University Buildings, 1955, p 114

"Air Conditioning, Use of Steam For"—BORIS DMITRIEFF, 1947, p 47

"Air Conditioning With Steam"—WALTER F. FRIEND, April 1950, p 107

"Air Distribution to Underfeed Stokers, Baffling for an Improvement in"—DAVID O. FOLTZ, 1953, p 213

Air Force Academy Hot-Water Installation, 1959, p 129

"Air Pollution, A Practical Approach to"—WESLEY C. L. HEMONS, 1963, p 133

"Air-Pollution-Control Measures"—BENTLY F. HARPER, 1961, p 141

"Air Pollution, District Heating Reduces"—EDWARD J. FLAHIE, 1953, p 59

"Air, Results of Testing Shuntflo Meters by"—PERCY A. HYDE, 1950, p 174

Akron, Ohio (Ohio Edison Company) Boiler Installed, January 1949, p 75

Expansion, July 1953, p 12; January 1958, p 93

Improved Heating in Building, January 1952, p 69

Meters, Meter Testing, 1945, p 74; 1948, p 171; 1953, p 179; January 1950, p 65

New 16-Inch Steam Line, October 1947, pp 7, 29

Steam Heating Activities, October 1948, p 14

"Alcoa Building, Heating for the New"—PAUL R. FISHER, October 1952, p 19

Allegheny County Steam Heating Company (see Pittsburgh, Pa.)

"Allegheny County Steam Heating Company Takes to the Hills, The"—FOSTER L. STEPHENS, July 1961, p 28

ALLEN, MILTON L.—"Management Looks at the Steam Business," 1957, p 52

ALSEN, PER—"District Heating in Sweden," April 1949, p 111

ALTHOUSE, JAMES W., JR.

"A Linear-Flow Element—Progress Report," 1956, p 81

"A Steam-Pressure Correction-Factor Recorder," 1962, p 187

Discussion of "Linear-Flow Element as a Precision Steam Flowmeter," 1955, p 170
“Turbine-Type Steam Meters, Operating Theory and Testing,” 1960, p 188; July 1961, p 34
Aluminum Sheet Pipe Insulation, 1954, p 49
AMBROSE, WILBUR H. — “New Method of Regulating Temperature of Domestic Water from an Instantaneous Steam Heater,” 1957, p 195
“Automatic Control of System Pressures by Use of Long-Distance Gages”—CARL W. SIGNOR, 1962, p 75
American District Steam Company Red Diamond Brand Casing, 1949, p 239
Amines, Filming 1955, p 182
Amsterdam, Holland, District Heating Plans, 1946, p 76
Analyzer of Pipe-line Networks, 1952, p 182
Anchorage, Preferred Types, 1950, p 296; 1954, pp 54, 57
“Characteristics of Pressure and/or Temperature Control,” 1956, p 113
“New Dynamically-Balanced Diaphragm Valve,” 1959, p 71
“What the Salesman Should Know About Steam for Water Heating,” 1963, p 103
Annealing Pipe, 1954, p 53
Annual Load Factor (see Load Factor)
“Another Stainless Steel Feed-water Heater Installed by The Detroit Edison Company”—WILLIAM M. DULL, 1955, p 128
Apartment Building Sales Problem, 1952, p 69
“Apartment House, Choosing a Central-Refrigeration Plant for an”—HARRY A. COHAN, Jr., 1961, p 38
“Apartment Houses, Advantages of Central-Plant Air Conditioning in”—DANIEL CHYTALO, 1960, p 71
Apartment Houses, Steam Consumption of, 1951, p 138
“Application of Steam-Absorption Air Conditioning”—GEORGE H. TUTTLE, 1948, p 123
“Art of Selling, The”—H. W. BUSCHMAN, 1948, p 152
ASHTON, W. F., S. M. ROSE—Discussion of “Chemical Cleaning of Boilers, Auxiliaries and Heat Exchangers,” 1960, p 169
Atlanta, Ga.
Customer Steam-Service Policies, 1959, p 59
District Steam-Heating System, April 1947, p 105
Housing Projects, 1946, p 72
Incinerator, January 1947, p 55
“Automatic Control of System Pressures by Use of Long-Distance Gages”—CARL W. SIGNOR, 1962, p 75
“Automatic Rate-Adjustment Provisions in Steam Rates”—CLIFFORD O. THURLOW, 1951, p 168
AUWERTER, JAY P.—“Dual-Ranging Shuntflo Meters by Means of Squires’ Pressure-Reducing Valves,” October 1953, p 53; 1954, p 159
B
“Baffling for an Improvement in Air Distribution to Underfeed Stokers”—DAVID O. FOLTZ, 1953, p 213
Bailey Meter, 1951, p 179
“Bailey Wide-Range Metering”—WILLIAM G. GILLIM, 1959, p 118
Baltimore, Md., Low-Cost Capacity at, 1950, p 244; 1955, p 137
Bank Building Space Heating Steam Consumption, 1945, p 12
BANYASH, I. A.—“Steam-Main and Service-Line Construction, Detroit,” 1963, p 80
BARBOUR, MAURICE A. — “Can the Peak Demand on a Utility Heating System be Reduced by the Use of a Demand Rate?” 1952, p 127
BARRY, PETER, JOHN C. HAROLDSON — “Corrosion and Erosion of Slip-Type Expansion Joints,” 1953 p 121
“Deterioration of Sewer Lines Draining Manholes,” 1953, p 118
“Baseboard Heating”—ROGER A. PARSONS, 1952, p 95
“Beacon East Tunnel”—ROBERT B. BLACK, H. SIMPSON, WILLIAM R. YELTON, 1958, p 156
“Beacon Street, New Boiler, Stoker and Turbine at”—GEORGE A. HENDRICKSON, DAVID O. FOLTZ, 1958, p 50

“Bearing Life, Condensate Meter”—W. E. WEBB, JAMES C. THOMPSON, 1958, p 142

“Bearing Modification Increases Condensate Meter ‘In Service’ Time”—FLOYD V. RUDE, 1958, p 141

BEHNKEN, RUDOLF W. — “Sequential Metering,” 1964, p 140

“Belgium, District Heating Applied to Vine Culture in”—G. FmKE, October 1955, p 57

BELL, HARLEY J., JOHN C. HAROLDSON — “Experience with Corrugated Packless Expansion Joints,” 1951, p 97

BERK, A. A. — “Corrosion Prevention Through the Chemical Treatment of Steam,” 1947, p 273

BERLIER, J. C.—“Indianapolis Power & Light Company Improves its Steam-Heating System,” April 1962, p 151

Bills, Explaining High and Keeping Low, 1950, p 76

BISHOP, THOMAS C. — “Cities Heating Company, Ltd., Produces Steam for 342 Customers,” October 1957, p 57

“Flyash Re-injection,” 1958, p 46

BLACK, ROBERT B. — “Beacon East Tunnel,” 1958, p 156

“Blowing Out New Steam Piping,” 1961, p 76

“Wide-Range Metering for Industrial Loads,” 1956, p 74

“Block Analyses in Designing Rates and Determining Rate Effects, The Use of”—HARRY A. WEITZMAN, 1950, p 214

“Blowing Out New Steam Piping”—CLARENCE N. MACDONALD, ROBERT B. BLACK, STANLEY MAKAR, 1961, p 76

BOGDANOWSKI, JOHN W. — “Horizontal Boring for Steam, Gas and Electric Installations — Underground,” 1948, p 278

“Induction Welding,” 1959, p 157

Boiler (see also Furnace)

“Boiler and Stoker Rebuilding and Replacement”—R. G. FELGER, 1951, p 159

Boiler Insurance, 1945, p 113

Boiler, Semi-Outdoor, October 1950, p 12

Boiler Statistics (see Proceedings 1945–1964)

“Boiler Water, Determination of Sulphite, 1947, p 305

Boilers at Baltimore, Low-Cost, 1950, p 244

“Boilers, Dual-Circulation”—ROBERT A. LORENZEN, 1957, p 139

“Boilers, Extending the Useful Life of Older” —ROBERT B. DONWORTH, 1946, p 164

“Boilers for District Heating, Standardized Industrial”—CARL E. MILLER, 1953, p 198

“Boilers for High-Temperature Water-Heating Systems, Controlled-Circulation”—S. F. MUMFORD, 1957, p 158

“Boilers for Stand-By Services, Procedures for Laying-Up”—CHESTER M. HUTT, 1961, p 147

Boilers, Ion Exchange for Low-Pressure, 1959, p 38

Boilers, Spare Capacity, 1957, p 171

BOQUEL, PIERRE C. — “Installation of Packaged Steam Mains,” 1961, p 80

“Steam-Main and Service-Line Construction, New York City,” 1963, p 78

Bores (see Tunnels)

“Boring for Steam, Gas and Electric Installations — Underground, Horizontal”—JOHN BOGDANOWSKI, 1948, p 278

“Boring, Horizontal Earth”—JOHN BOGDANOWSKI, 1957, p 117

BORROMEO, BROTHER—“Heat Control at the University of Notre Dame,” 1949, p 154

BOSCH, TONY, JR.—“Present Practices and Suggested Improvements for Insulating Pipe,” July 1954, p 15

BOSL, JOSEPH J.—“Solving Network Steam-Flow Problems with the Digital Computer,” 1962, p 84

BOSSONE, EDMUND D. — “Relation of Degree Days to Minimum Temperature in Various Cities,” 1955, p 79

“Steam-Line Conduit Improvements,” 1957, p 136

Boston, Mass. (Boston Edison Company)

Air Conditioning, Factors Influencing the Choice of Steam-Absorption, 1958, p 117

Air Conditioning Load, Steam, 1960, p 61

Air Conditioning Loads, Steam Methods Employed in Obtaining, 1960, p 61

Air Conditioning, Steam Absorption, Case Histories, 1964, p 44

Snow-Melting Experience, 1959, p 88

Temperature-Control Installations, 1958, p 91

Bottle Sterilizing, 1953, p 57

Bowling Alleys, Space Heating Steam Consumption, 1945, p 13
Campus Heating Committee Reports (see Proceedings 1954-1961) (see also University Heating and Utilities Committee Reports, Proceedings 1942-1964)

"Campus-Heating Plant of Northwestern University, New Chicago"—John C. Sanderson, Jr., 1958, p 126

Campus-Heating Systems, Comparison of, 1958, p 138; 1959, p 146

"Campus, Steam-Distribution Techniques at the Northwestern University"—George L. Reichert, 1961, p 163

"Campus-Utility Problems, Absorption Refrigeration, The Answer To,"—G. Owen Kuhlen, 1960, p 88

"Can the Peak Demand on a Utility Heating System be Reduced by the Use of a Demand Rate?"—Maurice A. Barbour, 1952, p 127

"Canal Road Plant, Rebuilding"—Charles E. Richards, 1953, p 188

Capacity, New Generating, 1948, p 219 (also see Generating Capacity)

"Capacity Requirements for District-Heating Systems, Spare"—George M. Johnson, 1957, p 171

"Capital at a Minimum for District-Heating Systems, Keeping New Boiler"—Norman W. Young, 1955, p 141

Capital Invested and Proposed (see Proceedings 1945-1964)

Carlson, Gordon V.

"Improved Method of Supporting Steam Pipes in Tunnels," 1955, p 125

"Carrier Absorption Installations, News and Views of"—Victor Cole, 1954, p 123 (see also 1949, p 152)

Cary, Francis H.

Discussion of "Turbine-Type Steam Meters, Operating Theory and Testing," July 1961, p 34

"Pressure-Compensated Counter for Shuntflow Meters," 1958, p 143

Cases, Court and Commission, 1947, pp 109-112

Cathodic Protection (to Control Corrosion Only) 1948, p 95

"Cathodic Protection of Underground Steam-Distribution Lines"—George K. Sauerwein, 1953, p 139

"Cathodic Protection of Underground Steam Mains"—James A. Sheppard, Jr., 1958, p 149

Cell-Concrete, Installation of, 1947, p 211

Cell-Concrete Properties, Installation Time and Use as a Reinsulator, 1945, pp 21-27

"Cell-Concrete to Insulate a Reconditioned Steam Main, The Use of"—Frank J. Schlachter, Ernest T. Smith, Glen D. Buxton, 1949, p 268

"Cellular Concrete for Insulation of Underground Steam Lines, The Use of"—Paul Chenzoff, 1949, p 266

Cement from Freezing, Steam Keeps New, July 1961, p 50

"Central Cooling, Comments on"—J. H. Walker, April 1945, p 132

"Central Heating and Cooling, Btu Metering for"—Kenneth S. Davidson, 1960, p 180

"Central Monitoring and Control of Steam for a Complex of Buildings Served Steam from Central Station"—Russell Stem, 1964, p 67

"Central-Plant Air Conditioning in Apartment Houses, Advantages of"—Daniel Chynalo, 1960, p 71

"Central-Station Heating and Cooling in Hartford"—William T. Jebb, October 1961, p 69

"Central-Station Steam Economical, Creative Thinking Makes"—Salvatore S. Guzard, 1957, p 44

Chambliss, Joseph M.—"Operating Data for Steam Booster Compressor Serving High-Pressure Steam to Hospital," July 1946, p 86

Chapman, William P.—"Panel Heating, Another Tool for the Heating Engineer," 1954, p 69

"Characteristics of Cooling Towers Operated in Conjunction with Steam Air Conditioning"—Boris A. Dmitrieff, 1957, p 62

"Characteristics of Pressure and/or Temperature Control"—Henry W. Angeler, 1956, p 113

"Chemical Cleaning of Boilers, Auxiliaries and Heat Exchangers"—J. P. Engle, C. E. Fox, R. B. Rosene, 1960, p 158

"Chemical Control of Combustion Deposits—A Progress Report"—Theodore T. Peck, 1956, p 86

"Chemical Treatment, Demineralization, or Evaporation for Make-Up in High-Pressure By-Product Steam Plants,"—J. D. Yoder, 1950, p 233

Chemistry Committee Reports (see Proceedings 1945-1947)

Chenzoff, Paul

"Operating Experience of Member Companies with Various Types of Packing for Slip-Type Expansion Joints," 1947, p 227

"Prevaling Methods of Trapping Condensate from Steam-Distribution Mains," 1946, p 166

"The Use of Cellular Concrete for Insulation of Underground Steam Lines," 1949, p 266

"Chicago Housing Authority Central-Heating Plant"—Ed Durham, 1962, p 52

"Chicago, Steam Operations at the University of"—J. C. Segeler, 1953, p 117
Chilled Water as a Utility, January 1964, p 83; 1964, pp 124, 125
Chilled-Water Installation Planned for Pittsburgh, Pa., April 1964, p 124
“Chiller Equipment, Selection of”—LUCIAN T. KIGHT, 1963, p 29
“Choosing a Central-Refrigeration Plant for an Apartment House”—HARRY A. COHAN, Jr., 1961, p 38
Churches, Steam Consumption of, 1951, p 138
CHYTALO, DANIEL—“Advantages of Central Plant Air Conditioning in Apartment Houses,” 1960, p 71
Cities Heating Company, Ltd. (London, Ontario)
“Makes Big Improvements”—R. B. BEAMISH, October 1949, p 12
“Produces Steam for 342 Customers”—THOMAS C. BISHOP, October 1957, p 57
CLARK, RICHARD J., LOUIS H. HEIDER, A. LOUIS MEDIN—“Nuclear Reactors for Space Heating,” 1957, p 186
Cleaners, Jet for Walls, Kettles, etc., 1953, p 59
“Cleaning Out 20-inch Feeder Before Putting into Operation”—GEORGE H. VOELKES, January 1957, p 95
Cleveland, Ohio (The Cleveland Electric Illuminating Company)
“Builds Line to Serve Otis Elevator Building”—ALBERT A. CASEY, April 1953, p 105
“Canal Road Plant, Rebuilding”—CHARLES E. RICHARDS, 1953, p 188
“Coal Evaluation at The”—H. T. RUTKOWSKI, R. G. SCHUERGER, 1960, p 48
“Mechanization of Underground Construction at the”—ALEXANDER DOUGLAS, 1951, p 120
Cloth Sponging and Shrinking, Process Steam Consumption, 1945, p 120
Clubs, Steam Consumption, 1945, p 13; 1951, p 138
CLYMER, ELLWOOD A., JR.
“Prefabricated Steam-Line Installations,” 1962, p 79
“Soil Temperatures Adjacent to a 24-Inch Steam Main,” 1953, p 109
“Coal—Ready-Made Heat From”—DAVID W. LOUCKS, January 1949, p 57
Coal Statistics (see Fuel Statistics)
Coal Storage (Sub-bituminous Slack), October 1946, p 21
“Coal-Storage Bins Positive Discharge, Designing”—JAMES R. GARVEY, 1959, p 159
Coal Weighing, July 1961, p 41
“Coal’s Imperative Interest in the Complete Development of Steam Utilities”—ROBERT L. FITZGERALD, 1946, p 57
“Cobo Hall in Detroit Furnished Steam by The Detroit Edison Company”—RAYMOND R. SCHOLCRAFT, July 1962, p 17
COHAN, HARRY A., JR.—“Choosing a Central Refrigeration Plant for an Apartment House,” 1961, p 38
COLE, VICTOR
“New Developments in Large Absorption-Refrigerating Equipment,” 1955, p 106
“News and Views of Carrier Absorption Installations,” 1954, p 123
College Buildings, Steam Used in Kitchens and for Water Heating, 1950, p 101
COLLINS, JEROME J.—“The Use of Copper Tubing in Small Service Lines,” 1948, p 282
COLLINS, JOHN F., JR.—“History of District Heating, The,” April 1959, p 154
COLLINS, LEO F.—“Experience with a Demand Limiter,” 1955, p 93
“Columbia City, Ind., Unusual Steam-Line Repairs in”—L. L. MCDANIEL, January 1952, p 82
“Combination Company’s Steam-Rate Case, A”—L. A. MOLLMAN, 1949, p 85
“Combination Turbine and Absorption Systems”—G. OWEN KUHEN, 1962, p 39
“Combined Operation of Electric-and-Steam Service, American and European Viewpoints on the”—WARD F. DAVIDSON, 1948, p 182
“Combustion Deposits, Chemical Control of—A Progress Report”—THEODORE T. PECK, 1956, p 86
“Comments on Central Cooling”—JAMES H. WALKER, April 1945, p 132
“Commercial Relations”—PERCY A. HYDE, 1951, p 135
Commercial Relations Committee Reports (see Proceedings 1945-1964)
“Commercial-Relations Problem, District Heating’s Most Pressing”—J. REXFORD VERNON, 1950, p 71
Commission Decisions, 1948, p 114; 1949, p 125
Committees, Activities of Association, January 1945, pp 55-63
Commonwealth Edison Company Plant Built for University of Illinois, October 1951, p 10
Companies and Municipalities Selling District Heating in New England, January 1955, p 106
“Comparative Operating and Owning Costs—Central Air-Conditioning vs. Room-Cooler Installations”—G. OWEN KUHEN, 1957, p 66
“Comparative Study of Shuntflo vs. Condensate Meter and Unmetered Steam of Consumer”—RICHARD H. BROWN, 1952, p 136
“Comparison Between Air and Steam Testing of Shuntflo Meters, A”—WILLIAM G. GIL- LIM, 1948, p 162
“Comparison of a Prefabricated and a Standard-Type Underground Steam-Main Conduit”—Vernon J. Suche, 1949, p 281

“Compensation for Effects of the Shunt Path on the Calibration of Type KS Shuntflow Meters”—Richard J. Rowsome, Eaton V. Kelly, 1964, p 29

“Competition, Comments Regarding, 1952, p 201

“Competition in the Steam Business, Rates and”—Clifford O. Thurlow, 1961, p 32

“Competition, Survey of”—Orman H. Davidson, 1952, p 63

“Competitive Steam Analyses”—Arthur T. Lukens, 1958, p 85

“Compressor Serving High-Pressure Steam to Hospital, Operating Data for Steam Booster”—Joseph M. Chambliss, July 1946, p 196

Compressors, Steam, July 1946, p 179; 1955, p 85

Compressors, Steam Mechanical Drive for, 1947, p 150

Computer (see Digital)

Concrete Curing with District Steam, October 1954, p 67

“Concrete, Insulating”—Frederic G. Davis, 1949, p 277

Concrete, Solid-Pour, Installations, 1950, p 275

“Condensate From Steam-Distribution Mains, Prevailing Methods of Trapping”—Paul Chenzoff, 1946, p 166

Condensate Meters (see Meters)

“Condensate-Return Lines, Detecting and Locating Leaks in Buried”—S. F. Whirl, 1958, p 60
