

# District Heating

JANUARY-FEBRUARY-MARCH 1977

VOLUME 62 - NUMBER 3

AN OFFICIAL PUBLICATION OF THE INTERNATIONAL DISTRICT HEATING ASSOCIATION  
PUBLISHED QUARTERLY SINCE 1915

# District Energy Suppliers in the United States and Canada

*This compilation is the result of a survey initiated by the IDHA Headquarters Office in November 1975. So that the data would be as complete as possible, all known sources of information were contacted and they included (1) companies and municipalities listed on the Association's 1962 compilation (2) the Public Utility Commissions, or their equivalent, in the 50 United States and (3) Canadian informational sources. At our deadline date for going to press with this issue of District Heating, some sources still had not responded to our communications; therefore, those companies and/or municipalities have not been included.*

*No attempt has been made to include all colleges, universities, hospitals, shopping centers, etc. which operate district energy systems.*

## UNITED STATES

### ALABAMA

**Birmingham**  
Alabama Power Co.

### ALASKA

**Fairbanks**  
Fairbanks Municipal Utilities System

### CALIFORNIA
