

FREEZING CAUSES DAMAGE

Expansion in the Sycamore Standpipe
Bursts Off the Head.

Sycamore, Ill., Jan. 8.—(Special.)—
The Sycamore standpipe, located in
the center of Main street, opposite the
court house, was badly damaged on
the top by the expansion of ice from
the interior.

Huge planks which cover the top
were torn and twisted and the iron
crown demolished. Ropes with red
flags and lanterns now enclose the
standpipe to prevent accidents.
