

THE

Shaker Medicinal Spring Water.

And what twenty-seven Physicians say about it.

- "The water is perfectly colorless, and of great purity."
- "It will be found effective in *all* diseased conditions of the system."
- "The amount of benefit derived from its use cannot be too highly estimated."
- "We have no hesitation in pronouncing it equal, if not *superior* to the Poland water, in its therapeutic effects."
- "I have used the water from several mineral springs, and give this my preference over all others."
- "As a remedial agent, it is of more value than all the drugs in use."
- "The Shaker Medicinal Spring Water I cheerfully recommend as possessing superior healing qualities."
- "During my twenty-four years' acquaintance (and practice) with the community (using this water;) *no one has died of Diabetes, Bright's Disease, or any Nephritic disease.*"
- "I have used the Poland, Allendale, Bethesda, and other mineral waters, and pronounce the *Shaker water with all sincerity superior to all.*"

Many more testimonials might be added.

It has proved a Panacea to the community who have used it for twenty-five years, as "immunity from disease," health and longevity testify. Its virtues having become known, it has steadily gained in favor and confidence of the public.

Often expressed, "THE BEST WATER IN THE WORLD."

ANALYSIS!

1902-1
(97357114)
6

STATE ASSAYER'S OFFICE,
BOSTON, Nov. 15th, 1880.

To E. MYRICK :

The sample of water received from the spring and submitted for analysis has been carefully examined with the following results. In one United States Gallon :

Carbonic Acid, combined,	163	grains.
Sulphuric Acid,	680	"
Chlorine,	586	"
Lime,	1,017	"
Silica,	816	"
Magnesia, combined	344	"
Soda,	380	"
Alumina and Iron (traces)	003	"

Total residue per U. S. Gallon, 3,985 grains.
 Free Ammonia, parts per 1,000,000=.02
 Albuminoid Ammonia, parts per 1,000,000=.04

The water is colorless and tasteless.

Respectfully yours,

H. L. BOWKER.
CHARLES E. AVERY.

Nearly one-fourth of the residue being essential acids renders it highly effective as a BLOOD PURIFIER.

This is not an ordinary flowing spring, but is forced up from a great depth and filtered through Micaceous Schist, over a space of several square rods.

We have perfect confidence in the intrinsic value of this water, confirmed by many years' experience, and feel sure it will effect all that is claimed for it.

S. T. ATHERTON,) Trustees.
E. MYRICK,)

Send stamp for pamphlet and testimonials to Shaker Agency No. 48 Boylston St., Boston Mass.

J. H. SPRAGUE, *Manager.*
