Annapolis Water Company.

RULES AND REGULATIONS.

1. Applications for the introduction of water into any premises, will be in writing and with the written consent of the owner, and must state fully and truly all the uses for which it is required; and no other or different use will be allowed, except upon application to, and by consent of the Company.

2. In all cases where permits are granted, the Company will tap the main and furnish corporation-stops and service-pipe to the sidewalk, for which a price will be paid by the applicant, according to the size of the stop and pipe. The service-pipe, stops, and other fixtures, must be kept in repair and protected from frost by the applicant or consumer; and in opening the street, the paving-stones and earth must be deposited in such manner as to occasion the least inconvenience to the public, and be restored in as good condition as previous to removal.

3. No consumer shall supply water to other persons or families, nor will any hydrant be permitted on the sidewalk, or in other exposed situation. All waste and unnecessary use of water is also prohibited.

4. When two or more parties or families are supplied by the same service-pipe, if either of them fail to pay the water rent when due, or to comply with any rule of the Company, the water may be shut off from the pipe until the rent is paid or the rule complied with.

5. When steam-boilers are supplied, a suitable safety or check-valve shall be attached to them, to prevent danger by collapsing when the water is drawn from the main pipes.

6. Every person taking water from the Company, shall at all reasonable times permit any of its officers or agents to enter his premises to examine his water-pipes and fixtures, and the manner in which water is used, and to turn off the water either inside or outside the building, whenever he may desire to do so. If in the opinion of the Board of Directors it is turned off for insufficient reasons, they will order it to be restored.

7. When the Company has turned off the water from any consumer, he shall not turn it on, or permit it to be turned on, without the written consent of the Company.

8. Water rents will be payable on the 1st days of January, April, July and October of each year, in advance, at the office of the Company, and if not paid within fifteen days thereafter, 10 per cent. shall be added, or the water may be turned off without notice.

9. It is expressly understood, that the Company shall not be liable, under any circumstances, for a deficiency or failure in the supply of water, whether occasioned by shutting off the water to make repairs or connections, or for any other cause whatever.

10. The Company reserves the right to make further restrictions in the use of water, whenever the public exigencies may require it.

11. Every applicant or consumer of water furnished, or to be furnished by the ANNAPOLIS WATER COMPANY, expressly agrees with the said Company to take and use said water subject to these conditions, rules and regulations, and such others as the Company shall from time to time adopt.

12. For violation of any of the foregoing rules, or for fraudulent representation, the Company reserves the right to cut off the water without notice, and forfeit any payment made; and the supply will not be restored except upon payment of the expense of turning off and on, and the loss or drainage resulting from the violation of the rule, and upon a satisfactory understanding with the party that no further cause of complaint shall arise.

13. These rules may be altered or amended at the discretion of the Company.

Adopted August 17, 1866.

ALEX. RANDALL, *Presdt.*

JAS. R. HOWISON, *Sec. and Treas.*

Annapolis Water Company.
