
AUBURN WATER WORKS Co.—We publish to-day the notice of the Directors of this Company for two additional calls for installments on its capital stock.

We are advised that the work of laying mains is already about one-half completed, and that the entire contract will be completed early in October.

The new pipes, manufactured for the Company by the Jersey City Pipe Company were thoroughly tested a few days since, as now laid, being subjected to the requisite pressure by the forcing pumps of this Company in presence of His Honor, the Mayor, and Members of the Common Council, and a large number of citizens. The test proves entirely satisfactory.
