**WATER WORKS.**—The members of the Committee appointed by a resolution of the Council to examine the practicability of supplying the city with pure, soft and wholesome water from the Whetstone, have been engaged during the past week in attendance upon their duties, and we are glad to learn that there is every reason to believe we may soon expect to receive a favorable report. We have seldom, if ever, known a project of such importance meet with such general favor from all classes of our citizens.
