

UNITED STATES HOTEL—

The subscriber would respectfully solicit the attention of the traveling public to his New and Splendid HOTEL. This extensive brick edifice has been recently erected in the city of Rochester, fronting on Buffalo street, at the eastern point of the Tonawanda Rail Road, leading from Rochester through Batavia to Buffalo, and is now fitted up for the reception of visitors. Its location is airy and healthy; the Parlors and Drawing Rooms, are elegantly and tastefully furnished; the beds and bedding are new and selected from the best materials, without regard to expense; the dining room together with the entire apartments of the establishment will not suffer by a comparison with any in Western New York, and it is the purpose of the proprietor that they shall at all times be kept in strict conformity with cleanliness, and good order, and the wants and comfort of visitors. Most of the leading public Journals of the day may be had in the reading room; his wines and liquors are equalled by few and surpassed by none in the city; in addition to which is a spring of water famous for its excellence and purity. To his old friends and patrons who have formerly so generously sustained him, his warmest thanks are due, and he assures them and the public that his best exertions, with those of his household, shall at all times be exerted to render his new establishment every way worthy of their favors.

BOARDERS.—Families or single gentlemen will find at the above Hotel, some of the pleasantest accommodations afforded by any house in Rochester—every thing being newly arranged, and in the best order, in an agreeable part of the city.

THE RAIL ROAD CARS arrive and depart from the door to and from Batavia twice every day.
