

SITE FOR THE UNIVERSITY-BUILDINGS.—Contrary to the positive assertions of some supposed to be well informed in the matter, we understand that the Trustees of the "University of Rochester" unanimously resolved, at a meeting yesterday, to accept the proposition of the Hon. A. Boody, in reference to a site for this institution. The location is a good one, and with the addition of the ten acres which he offers to sell if desired, will make the surroundings of the University buildings all that can reasonably be expected.
