

## HOLYOKE.

Holyoke is soon to lose an industry which bids fair to become an extensive one. The Bridgeport board of trade have tried for some time to induce Bell & Fuller to move their asphalt pipe manufactory to that city, which they have at last decided to do. A stock company has been organized under the name of the Asphalt pipe company, with a capital stock of \$50,000, \$10,000 of which is taken by Bridgeport parties, and these directors: G. M. Fuller of Holyoke, president and general manager; A. S. Thomas of Brooklyn, secretary; J. E. Fuller of Brooklyn, treasurer; S. R. Bell of Hadley and H. E. Halloway of Brooklyn. They will move their works, April 1, and start off with good prospects, having made a large contract to furnish water and gas pipes to Bridgeport, and a quantity of gas pipe in Northampton. They are also negotiating with the authorities of Battle Creek, Mich., about furnishing pipe for that city. R. S. Potter, agent for the Dominion pipe company of St Catharines, P. O., to whom they have sold the right to manufacture their goods in Canada, has examined and accepted the machinery manufactured for them, and it will be shipped to Canada, tomorrow.
